CARD DECLINE PROTECTION
MYCASH
TASC WALLET
PICTURE TO PAY
OMNICHANNEL

SMART · EASY · CONNECTED
Enjoy the convenience of one card that works with all your benefit accounts, as well as MyCash and GiveBack. The TASC Card is smart enough to know which account to draw funds from at the point of purchase.

No more wondering which card pays for what. It’s all covered with the innovative TASC Card.

(We think it’ll look pretty good in your wallet, too.)
With Card Decline Protection, we can approve a transaction even if you don’t have sufficient funds in your benefit plan or MyCash account to cover a qualifying purchase.

Set up a link to your bank account and we'll pull the difference, up to a pre-authorized amount.

Never worry about your TASC Card getting declined for insufficient funds!
MyCash gives participants the fastest access to their reimbursements from all benefit accounts. And their MyCash funds can be spent any way and anywhere.

- Fastest reimbursement method in industry
- Easy access via TASC Card
- Withdraw cash via ATM
- Spend like cash on non-benefit items
- Transfer funds online to bank account/GiveBack account

Participants enjoy the dual functionality of the TASC Card for both benefit purchases and cash access – and the smart technology to automatically differentiate between each account.
The **TASC Wallet** makes it easy to manage your TASC Card no matter where you are.

Request a new or replacement card, temporarily lock one that’s missing, even find a nearby ATM.

You can also securely store and access digital copies of your other benefit cards (i.e., insurance, prescription, etc.) as well as receipts and bills related to your benefit plans – all in one accessible location!
With Picture to Pay, you can delegate payment of a medical bill to TASC.

Simply take a picture of the bill and submit it via the TASC mobile app, and that’s it!

TASC will take care of it.

Our intelligent Universal Benefit Account™ system figures everything out from that image – the provider to pay, the dollar amount, and which benefit plans to pull funds from.
A channel is a way for employers and employees to interact with TASC. Examples include using the TASC website and mobile app, or calling in to Customer Care, etc.

We’re providing a seamless and unified experience no matter which channel you’re using, with a consistent look and feel and a smart, integrated approach.

We call that the **Omnichannel** experience.
