

SRC 2.0

Convenient online access to sales and service functionality in one secure, centralized location.

The TASC Sales Resource Center (SRC) is a consolidated resource portal where you will find everything you need to help sell TASC services -- *all in one easy-to-access location!* Easily access sales and service materials while also tracking your production totals, client activity, and staying informed on important TASC news and announcements.

Convenient, Centralized, and Secure

- **Centralized Resources:** Easily access everything you need to help sell and service your Clients, in addition to monitoring your own sales progress, in one location.
- **Secure Environment:** The SRC is a secure, password-protected site hosted through the TASC website (formerly hosted on Wordpress).

Dynamic, User-Friendly Layout

Navigating the SRC is simplified with three visible areas of service functions to quickly find what you need: The Library, Quick Tools, and News Room.

In addition, you may easily navigate to other areas within the TASC website without leaving the Sales Center.

NOTE: You must be a contracted TASC Provider in good standing to access this resource center.

www.tasconline.com

How to Access the SRC:

Go to www.tasconline.com and log-in with your TASC Username (ID#) and Password. In a new tab on your internet browser (not the tab that just launched with the MyTASC homepage) go to www.tasconline.com. The Sales Center link will now be accessible on your TASCOnline navigation bar.
