

Keep up with changing market demands by offering a **customized**, compliant benefits solution.

The landscape of Health and Welfare benefits requires a unique approach, customization down to a single employee, and strict adherence to complex laws and changing regulations for employers, which can leave a heavy burden on your HR professionals.

TASC offers a variety of pre-set **Service Bundles** that combine the reliable management of time-sensitive and labor-consuming continuation and compliance programs, with the convenience of TASC's one-of-a-kind Universal Benefit Account (UBA). Simply choose the Bundle that meets the goals and objectives of your organization.

Benefit Accounts and Compliance Made Easy

By choosing a TASC Bundle, you receive the same great service features of our individual offerings with the added simplicity of a singular pricing model and consolidated account management under one vendor.

With one plan application, one onboarding, one invoice, and our fully-integrated web portals for one login, it has never been easier to purchase the benefits you need to create an attractive employee benefits program, all while staying fully compliant with constantly changing government regulations.
